PROFESSIONAL EXPERIENCE

Senior Director of Product Management — *Nexis Cloud Systems, San Francisco, CA* 2023 — Present

- Spearheaded the architectural overhaul of a legacy business analytics application into an elastic microservices model, expanding total computational output capacities.
- Directed an international organization comprising twenty-five product managers, designers, and systems engineers to deliver premium cloud subscription feature modules.
- Pioneered data-driven engagement initiatives that successfully reduced platform churn rates from a historical high baseline down to a record optimal tier.
- Formulated core long-term application strategies and metrics directly adopted by corporate officers to guide consecutive capital investment rounds.

Principal Product Manager — *Stratum Automation, Austin, TX* 2019 — 2023

- Managed the end-to-end operational roadmap of an artificial intelligence orchestration layer utilized daily by numerous commercial enterprise accounts.
- Partnered intensely alongside technical account executives to secure valuable tier-one agreements, increasing regional software revenue pipelines.
- Instituted continuous structural validation processes across agile development squads, which accelerated typical production feature cycles.
- Facilitated cross-functional workshops to align design systems, mitigating deployment frictions and optimizing global release consistency.

Senior Product Manager — *Vanguard Digital Labs, New York, NY*

2014 — 2019

- Owned user retention modules for a foundational mobile commerce platform, leading iterations that enhanced checkout completion variables.
- Executed extensive quantitative consumer testing matrices to uncover system behavioral insights and guide primary roadmap priorities.
- Collaborated directly with engineering leads to remove legacy technology debt, resulting in stabilized API transaction performance.
